DKT ARTWORKS

DKT Artworks is a unique multi-disciplinary team of imaginative and highly skilled artists, specialising in the design and production of high-end bespoke decorative finishes and site-specific artworks. Working with the industry's most respected designers, shipyards and specialist outfitters, over the past 20 years DKT Artworks' creations have graced some of the world's most renowned superyachts, including the award-winning *TIS*, *Phoenix 2*, *DAR*, *Al Lusail*, *Elandess*, *Kismet*, *Cloud 9* and *Dilbar*.

Since the company was founded in 1979, DKT Artworks has built a tight-knit team of talented artists, designers and artisans to work across its wide-ranging projects. The majority of the design, sample production and manufacturing takes place at its studios in London and Prague, and in both locations, clients can view an impressive archive of past projects, browse samples and see prototypes and current works in progress.

The team works across a wide spectrum of techniques, styles and materials, offering innovative solutions on a comprehensive range of projects and decorative finishes, from murals, trompe l'oeil, sculpture and bas-relief to hand-crafted mosaics, verre églomisé, decorative plasters and painted and gilded surfaces.

DKT Artworks offers everything from clean-sheet origination to the realisation of given design concepts, while continuing to emphasise the intrinsic value of hand-produced arts and crafts. Over the years it has established valuable relationships with like-minded, quality conscious companies in the overlapping fields of manufacturing, technology and crafts, allowing them to offer a greater breadth of services as a result.

With more than 20 years' experience in the marine sector, the company is well versed in fulfilling the stringent

standards demanded by the industry. One of DKT Artworks' strengths is the ability to identify the best solutions to suit specific requirements. Following any commission, the team continually liaise with designers and project managers to guarantee a smooth and effective process from inception to completion.

After many years of pushing creative boundaries and experimenting with new materials, techniques and styles, DKT has developed a range of limited-edition artworks. These offer all the features of high-quality artworks while providing adaptability and versatility in that they can be adjusted to fit a particular vision or space. The success of these creations has led to further bespoke commissions that have found a home on board superyachts and in high-end residences, as well as being showcased in showrooms and galleries internationally.
